

PRESIDENT SENDS SPECIAL TREATY WITH FRANCE TO SENATE

Chief Executive Did Not Follow Usual Custom.

Sends Treaty With Address Urging Adoption by Special Messenger.

At the Request of Senator Lodge Matter is Referred to Foreign Relations Committee

(By Associated Press)

Washington, July 29.—President Wilson today transmitted to the Senate the special treaty with France, by which the United States pledges itself to come immediately to the aid of that republic in the event of an unprovoked attack by Germany and asked for its early ratification along with the treaty with Germany.

Submission of the treaty came after sharp criticism by republicans who openly charged that, failing to present the draft of the pact along with the treaty of Versailles the President had violated one of the articles of the document.

The President did not follow his usual custom of presenting the treaty in person. He sent it to the capitol by special messenger along with a message explaining its object.

By unanimous consent the French treaty was laid before the Senate in open session at the request of Chairman Lodge of the Foreign Relations Committee.

At his suggestion the treaty was referred to the Foreign Relations Committee without objection or discussion.

WILSON'S ADDRESS

(By Associated Press)

Washington, July 29.—President Wilson's message to the Senate today, accompanying the Franco-American treaty, follows:

"Gentlemen of the Senate: "I take pleasure in laying before you a treaty with the Republic of France, the object of which is to secure that Republic of the immediate aid of the United States of America in case of any unprovoked movement of aggression against her on the part of Germany.

"I earnestly hope that the treaty will meet with your cordial approval and receive an early ratification at your hands, along with the treaty of peace with Germany.

"Now that you have had an opportunity to examine the great document I presented to you two weeks ago, it seems opportune to lay before you this treaty, which is meant to be, in effect, a part of it.

"It was signed on the same day with the treaty of peace, and is intended as a temporary supplement to it.

"It is believed that the treaty of peace with Germany itself provides adequate protection to France against aggression from her recent enemy on the east. But the years immediately ahead of us contain many incalculable possibilities.

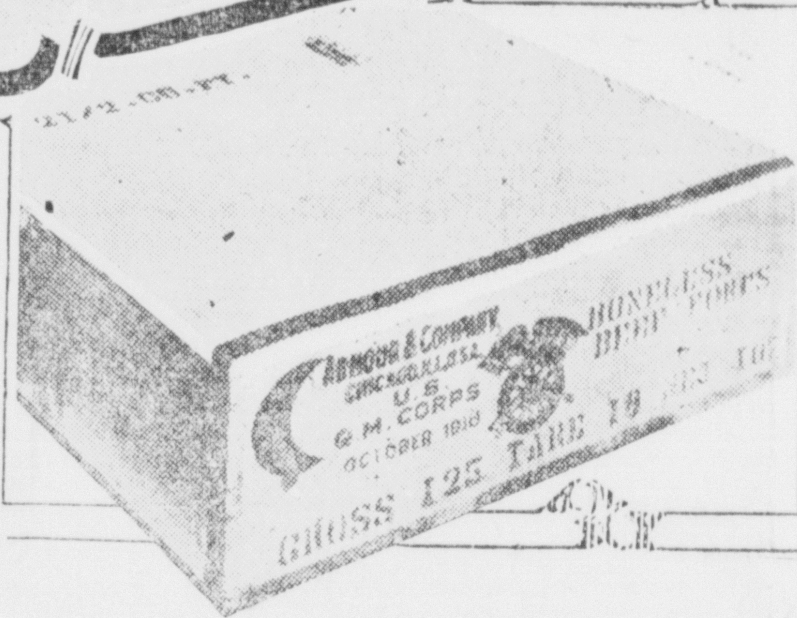

"The covenant of the League of Nations provides for military action for the protection of its members only upon advice of the council of the

GOVERNMENT TO SELL SURPLUS ARMY SUPPLIES AT COST IS BEST NEWS SINCE ARMISTICE DAY, SAY HOUSEWIVES

The photographs show truck loads of surplus army supplies arriving in Washington and one of the boxes of meat which was packed for overseas use and bought by the government for army use, but will now be sold to civilian consumers.

It is announced that the surplus supplies of the United States army are to be sold to the consumers, not middlemen need apply, at cost. Perhaps the low-salaried man may get a piece of meat at least on Sunday or a holiday now. The public is offered 66,311,435 pounds of meat at enormous saving in price and more is to be released from the supply houses.

League—advice given, it is to be presumed, only upon deliberation, and acted upon by each of the governments of the member states only if its own judgment justifies such action.

"The object of the special treaty with France, which I now submit to you, is to provide for immediate military assistance to France by the United States in case of any unprovoked movement of aggression against her by Germany, without waiting for the advice of the council of the League of Nations that such action will be taken.

"It is to be an arrangement not independent of the League of Nations, but under it. It is, therefore, expressly provided that this treaty shall be made the subject of consideration at the same time with the treaty of peace with Germany; that this special arrangement shall receive the approval of the council of the League; and that this special provision for the safety of France shall remain in force only until, upon the application of one of the parties to it, the council of the League, acting, if necessary by a majority vote, shall agree that the provisions of the covenant of the League afford her sufficient protection.

"I was moved to sign this treaty by considerations which will, I hope, seem as persuasive and as irresistible to you as they seemed to me. We are bound to France by ties of friendship which we have always regarded, and shall always regard, as peculiarly sacred. She assisted us to win our freedom as a nation. It is seriously to be doubted whether we could have won it without her gallant and timely aid.

"We have recently had the privilege of assisting in driving enemies, who were also enemies of the world, from her soil; but that does not pay our debt to her. Nothing can pay such a debt.

"She now desires that we should promise to lend our great force to keep her safe against the power she has had most reason to fear. Another great nation volunteers the same promise. It is one of the fine reversals of history that that other nation should be the very power from whom France fought to set us free.

"A new day has dawned. Old antagonisms are forgotten. The common cause of freedom and enlightenment created new comradeship and a new perception of what it is wise and necessary for great nations to do to free the world of intolerable fear.

"Two governments who wished to be members of the League of Nations asked leave of the council of the League to be permitted to go to the assistance of a friend, whose situa-

tion has been found to be of peculiar peril, without awaiting the advice of the League to act.

"It is by taking such pledges as this that we prove ourselves faithful to the utmost to the high obligations of gratitude and tested friendship. Such an act as this seems to me one of the proofs that we are a people that sees the true heart of duty and prefers honor to its own separate course of peace.

(Signed) "WOODROW WILSON"

NEGROES BEATEN INTO SUBMISSION BY JAIL MATES

After Overpowering Guards The Negro Prisoners Encounter Whites.

One of Worst Riots of Whole Series Occurs in Jail

(By Associated Press)

Chicago, July 29.—One of the most serious riots of the day occurred in the county jail when 100 negro prisoners, exercising outside their cells, overpowered the negro guard and raced into the exercise room of the white prisoners where 600 to 700 men were confined.

When the negroes burst in there was an instant clash.

The regular force of guards was unable to control the fighters and therefore locked the doors and appealed for aid. The prisoners fought for an hour before they were beaten into submission with clubs. Several negro prisoners were seriously wounded.

"HARD BOILED" SHIFTS BLAME

Says Col. Grimstead Issued "Severity" Orders

(By Associated Press)

New York, July 29.—Recent complaints for cruel treatment of American prisoners at Prison Farm No. 2 near Paris, were placed squarely upon the shoulders of Major General F. S. Strong and Colonel E. P. Grimstead by Lieutenant Frank H. (Hardboiled) Smith, in testimony given by him today before a sub-committee of the House.

Smith told that his instructions from General Strong were that prisoners were to be treated with the most ruthless severity.

CHICAGO TRANSIT LINES COMPLETELY PARALYZED WHEN EMPLOYEES QUIT

Fifteen Thousand Street Railway Employees Walk Out

No Attempt to Run Cars is Made by Company.

Wage Increase Demanded by Men Not Met by Officials of Rail Lines.

(By Associated Press)

Chicago, July 29.—Fifteen thousand street railway employees went on strike for higher wages at 4 o'clock this morning, completely tying up the surface and elevated systems of the city.

The companies made no attempt to run cars, and workers depended on steam railways, automobiles and other vehicles to reach their places of business.

Early last night, it was announced that the heads of the unions and officials of the company had reached a compromise agreement. It was thought this action would avert a walkout, but at a mass meeting before midnight the men repudiated an agreement and employees voted to strike at four o'clock.

The employees demand 85 cents an hour, an eight-hour day and time and a half for overtime.

TRAFFIC "JAM" IN CHICAGO'S BUSY STREETS

Police all Busy in Black Belt Section.

(By Associated Press)

Chicago, July 29.—The worst traffic conditions that Chicago has faced in many years prevailed in the downtown district today. No traffic policemen were on duty, most of them being detailed to riot squads, in the black belt and all kinds of vehicles from trucks and motorcycles to bicycles and horse wagons jammed the crossings.

BITTER DEBATE OVER SALE OF ARMY SUPPLIES

(By Associated Press)

Washington, July 29.—House republicans and democrats today lined up for bitter debate on the attitude of the War Department in selling its surplus food stocks valued at \$122,000,000.

A resolution requesting Secretary Baker to adopt a policy of immediate sale of the products direct to the consumers was under consideration.

COUNTY JAIL TOO

A vicious race fight broke out in the county jail shortly after eleven o'clock. The whites outnumbered the blacks 20 to 1 and the guards were swept aside when they tried to stop the trouble.

Exploitation of the negroes by politicians is believed by many to be responsible for the riots. The State's Attorney issued a statement in which he declared politics is responsible for the trouble. The police department is so demoralized by politicians that the police are afraid to arrest men supposed to have political backing, it is asserted.

The fighting today centered in the heart of the black belt and to cope with the situation the police massed reserves of men and some 4,000 state troops were under arms in the city and as many more were under orders to be ready for emergencies.

Two dangerous flare-ups occurred as far south as Fifty-first and State streets and three vicious fights took place in the downtown district on Wabash avenue in broad daylight.

Columbus, O., July 29.—The meeting of county prosecutors from every county in Ohio, called for tomorrow afternoon by Attorney General Price, is expected to deal not only with food prices, but the high cost of living generally.

Representatives from the mining districts will bring stories, it is said, of lack of work in the mines, due in many instances to car shortage, but principally because of the hesitancy of domestic consumers to lay in their winter supply of coal.

The State Utilities Commission, acting upon complaint that threshing has been stopped in some sections and mines were not operating, had wired Director General of Railroads Hines to supply more grain cars.

RACE RIOTS IN CHICAGO SPREADING

Serious Fighting Occurs in Loop District of Windy City.

KILLINGS ARE CONTINUED

Residential Districts Become Scenes of Strife.

(By Associated Press)

Chicago, July 29.—City, county and state officials united today in an attempt to soothe Chicago's social trouble of race rioting.

Despite their efforts, trouble flared intermittently throughout the day and the death list grew until it reached 25. Even that figure was approximate as unconfirmed reports of additional killings were still seeping into police stations.

Conditions in the riot districts were reported improved at a conference held by Governor Lowden, Mayor Thompson and Adjutant General Dickson, at one o'clock. General Dickson, after a tour of the south side, reported the rioting slowly subsiding.

(By Associated Press.)

Chicago, July 29.—Race rioting spread outside the South Side colored district today. There was serious fighting and shooting in the Loop early in the forenoon.

The exclusive North Side residential district received a touch of the disorder. Killings continued after daybreak, bringing the number of dead in police reports up to 25 by 4:30 a. m., and hundreds were injured.

The police had under investigation three other reported killings. The list of twenty-five includes fifteen whites and ten negroes.

The street car strike seemed to aid the spread of the race rioting, which surged up from the South Side into the Loop, on the heels of thousands of people walking to work who ordinarily ride. Streets ordinarily almost deserted early in the day were thronged with pedestrians, mostly men and boys, whose number afforded rich opportunities for racial quarrels.

Several battalions of state troops were under arms in armories or parks awaiting possible call by the city. Meanwhile, the entire police force

M'KITTERICK WILL SOON BE ESCORTED TO THE PEN ANNEX

Word reaching this city from Dayton states that William McKitterick, former local man, who was found guilty and condemned to death for the murder of Belle Mann Green in Dayton, will this week be taken to the Ohio State Penitentiary annex, pending the outcome of his case in the Court of Appeals to which it was carried after the finding of the local court.

Should the Court of Appeals change the verdict McKitterick will be transferred from the annex to the other part of the prison. Should the Court the Court of Appeals to which it was carried after the finding of the local court, the death sentence will be carried out.

7500 BLACK BASS ARE DISTRIBUTED

A shipment of 7500 fine small black bass from the Federal hatchery at Centralia, Iowa, has been received by the Fayette County Fish and Game Protective Association, and also distributed in fifteen places in Fayette county streams, the work being done by members of the Association.

The black bass came in 15 large cans, and the fish are three to four inches in length, so that it will be a year or two before they will be of sufficient size to catch.

A little later on a large consignment of mature bass from the state hatcheries will be distributed in Fayette streams.

PRIVATE EXCHANGE IS SOLD TO BANK

General Manager H. E. Conwell, of the Bell Telephone company in this city, has closed a deal with The Washington Savings Bank for the installation of a private exchange with six stations, to be intercommunicating without an operator and be connected to the local exchange by two trunk lines.

The exchange is the third of its kind in the city, one being at the Brownell Packing Company and the other at the Washington Milling Company's plant.

Flies Cut Down Milk Yield

There's no doubt about it. Flies not only worry the cows and the milker, but they keep you from getting all the milk you should.

And there's no doubt about this either. The one way to get rid of flies at milking time—and the sure way to get more milk is to use

Pratts Fly Chaser

Spray it on just before milking. PRATTS does not taint the milk. PRATTS does not burn or blister the hide. PRATTS does not take off or gum up the hair.

Give your cows a chance to give more milk. Give your work animals a chance to get their rest. Give PRATTS a trial.

DOLLAR DAY IN WASHINGTON C.H. A GREAT SUCCESS

Shoppers Throng the City From Early in the Morning Until the Closing of The Stores in the Evening and Thousands of Dollars' Worth of Merchandise is Sold Over Counters—Everybody Well Pleased With Big Sales Event.

"It beats anything of the kind I ever saw in Washington C. H."

That is one merchant's way of expressing his opinion of and his amazement over the success of the Dollar Day here Tuesday, and it sums up in one sentence the opinion of the fifty or more merchants who united in the big sales event.

Merchants were frankly and agreeably surprised at the vast amount of business which started early in the morning and continued in increasing volume throughout the day, and those who had prepared to take care of an unusually large custom were patting themselves on the back.

And the surprise was not confined to the merchants alone, for shoppers were amazed at the articles offered for sale at a dollar, and at special prices, and lost no time in availing themselves of the big opportunity.

Early on the Job.

Before many of the stores opened in the morning groups of shoppers gathered at the doors eager to pick up bargains before it was too late.

Before porters had finished with the sweeping of storerooms and goods had been made ready for display, shoppers were on the job asking that this and that article be laid by for them until the salesforce arrived. The consequence was that business opened with a rush and until the stores closed at six o'clock clerks were kept constantly on the alert.

Many From Out of Town.

The representation of out-of-town buyers was probably the largest ever seen in this city. Trains from every direction were filled with them and automobiles thronged in on all roads.

Receptacles of all description—market baskets, shopping bags, traveling bags, suit cases and in many instances common burlap sacks—were used to carry purchases and the streets were filled all day with happy, jostling, bundle-laden people.

The curbs on every downtown street were lined with automobiles and parking space was at a premium.

All the Way From Tennessee.

"I am from Tennessee," a woman shopper informed a merchant. "I was motoring through with a party and hearing of Dollar Day stopped off to pick up some things I needed. I have never seen such bargains."

Theaters and Restaurants.

The restaurants had made special preparations for the shoppers, as did the theaters, which ran feature matinees, and both did a land office business.

Band Concert.

There was every indication that many of the out-of-town shoppers would remain for the concert this evening by the Whippley Band, and the theaters have arranged to give shows during the time from the closing of the stores until the opening of the band concert.

Repetition Considered.

Owing to the immense satisfaction of both the merchants and buyers, it has been suggested that another dollar day be held some time within the next two or three months, and the advisability of holding periodical Dollar Days is under consideration.

CENTERVILLE RESIDENT DIES IN THIS CITY

Mr. John C. McFadden, well known farmer of Centerville, who was brought to the Fayette Hospital last week for special treatment, following a stroke of paralysis, died Monday afternoon, aged 72 years.

Mr. McFadden belonged to one of the most prominent families of the Centerville vicinity and had been actively identified with its interests. His loss will be keenly felt.

He leaves one daughter, Mrs. Eva Martin, three grandchildren, two brothers and two sisters, Dr. L. M. McFadden, Dr. T. W. McFadden and John McFadden are nephews.

Funeral services will be held at the Christian church at Centerville at two o'clock p. m., Wednesday. Burial will be made in the Centerville cemetery.

LOCAL DRUGGIST AWARDED AGENCY

Trutona, the perfect tonic, that has now become widely popular in Louisville and other cities, now is on sale in the drug store of Frank Christopher.

The unprecedented success of Trutona is due entirely to its efficiency. Scores of people are daily testifying to the beneficial results they have obtained from its use. What better proof of a medicine's merit could be desired?

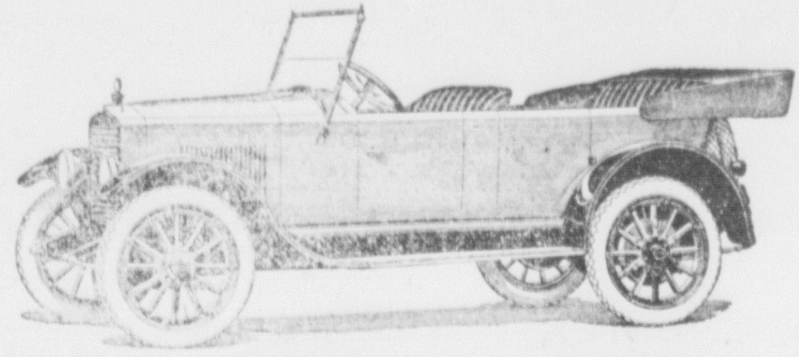

Trutona is a tonic of the highest degree, exciting the appetite and invigorating the digestion. It is highly recommended for the treatment of dyspepsia, stomach trouble, liver and kidney troubles and catarrhal affections. Its action on the liver is almost instantaneous, exciting that most important organ when languid and resolving its torpor and chronic engorgement.

Trutona acts directly on the mucus membranes, producing a sharply stimulative effect and leaving a pleasant tonic condition. It is a very valuable agency in all catarrhal affections, including those of the alimentary tract, head and nose. Trutona is a prompt, efficient and absolutely safe laxative. It is a strength builder unsurpassed by any preparation. Its use is recommended by run down and weakened men and women who are recovering from the serious after effects of pneumonia, influenza and deep colds.

Trutona is now being introduced and explained in Washington C. H., at Frank Christopher's drug store.

Essex Built to Fill Real Need

Any real automobile must combine comfort, endurance and economy. The Essex is a real automobile.

Carefully designed, as are those used under larger cars and they give as good results.

In the past, automobile development has been toward a cheap, light car with economy and low first cost as its chief advantages, or toward a larger car possessing luxury, comfort and endurance at a greater first cost and maintenance.

Although the Essex was only built for five passengers, as much room is provided for each passenger as is found in the great majority of higher priced automobiles. The backs of the seats reach the shoulders and the cushions are real seats and not just ledges. The pedals and levers are within easy reach of the driver.

The Essex combines to a supreme degree all the advantages of both these types with none of their disadvantages. It was built to fill a need, not to meet a price.

The Essex is so strongly built that it rides over the roughest roads with the smoothness of a car of much greater weight. But there is no surplus material, no useless weight to add to the expense of upkeep. And while none of its comfort has been sacrificed to obtain appearance, the beauty of the car comes from correct design, fineness of contour and work correctly done.

BONAR LAW SPEAKS ON STRIKE SITUATION

(By Associated Press)

London, July 25.—The whole force of the British government "will be exerted to protect the people from any undue pressure," Andrew Bonar Law, government leader, told the House of Commons today when asked what was being done regarding the confusion and disorder resulting from dockworkers' and miners' strikes.

"The government is well aware that there are a number of people, not a very large number, however, who are aiming at the destruction of our whole social and political situation," Mr. Bonar Law added.

As to the agitators, he said, "the government is not overlooking these people and will do whatever it thinks effective for that purpose."

GREAT HEALER FOR SORES, CUTS, CLALDS BURNS AND BRUISES

Great Antiseptic Ointment Called San Cura that Blackmer & Tanquary Sells on Money Back Plan.

"Arm badly scalded with steam," writes Gilbert Hard of Rinard's Mills Ohio; "San Cura Ointment relieved the pain at once and arm healed rapidly. It was a wonderful ointment."

Here's another: Ellis W. Frankenstein, Titusville, Pa., broke his leg; was in bed six months; discharged from hospital as incurable; was five years on crutches, while opening in,

leg continued to discharge pus; suffered terrible pains; San Cura Ointment drew out poisonous pus and many pieces of bone; now perfectly healthy; sore healed, and weight increased from 86 to 121 pounds.

San Cura Ointment is such a marvelous healing antiseptic ointment that it is sold on money back plan. It relieves itching, skin, tetter, eczema, salt rheum, old running and fever sores, ulcers, boils, carbuncles, sore nipples, piles, frost-bitten feet, chilblains, catarrh and chapped skin. Only 30 and 60 cents a jar.

Be sure and always use SAN CURA SOAP for all skin diseases and to give you a fine complexion. It's splendid baby soap, prevents infantile diseases. The Probe Era

Unless "signs" and indications fail the American people are entering upon an era of probes and investigations.

Never in the history of this or any other land has the opportunity to strike "pay dirt," with the probe, been more promising. Never before have officials had a better opportunity to render splendid service by honestly and fearlessly investigating expenditures of vast sums of the public money and conscientiously delving for the cause of the many economic ills that are oppressing us, than the present time.

It is to be hoped that realizing the tremendous opportunity which opens to them officials will see the need for real service and put behind them the temptation to obtain only publicity and political advantage.

This is a time for real service. The high cost of living problem forces itself out in advance of all others because it affects every American family. Heretofore nearly all of our official probes have turned into bursted bubbles giving off nothing more substantial than bright colors as they vanished from attention of public and ceased longer to attract officials.

While it is an opportunity to do a gigantic public service which will clear away the existing fog of doubt and suspicion and serve as a warning, to wrong doers, for all time to come yet the opportunity to play politics and serve self will be no less available. It will require strong, patriotic men—perhaps men willing to sacrifice themselves and their political future—to deal properly with these big problems.

America has such men. We need more real results and no publicity until we have those results. There is too much publicity given to the proceedings of probes. All the glory is available and appropriated in advance of the results so that the result is valueless for publicity purposes.

Hungary's Brockade

The ultimatum sent by the allies to Budapest warning Hungary that not until the Bela Kun regime is overthrown, the red revolutionists ousted from all power, terrorism brought to an end and order and a stable government, with which the allies can deal, assured of responsibility, will the blockade on foodstuffs and necessities be lifted, is not only the proper course, but it is the only course to pursue.

The idea that the allied nations, with all their own pressing demands for foodstuffs, raw materials and manufactured articles, perplexed and menaced by industrial and financial problems of their own should lay down all bars and ship articles needed at home to people who are not only making no effort to support themselves, but nurturing a menace to all civilization, is monstrous.

The people of Russia, of Austria-Hungary and every other nation, who have allowed Bolshevism to fasten itself upon them must learn that order must come before the world is safe in extending the helping hand. It is not a question, it seems to us, of humanitarianism so much as it is a question of self-preservation that is confronting the world today.

The nations which have saved the world from anarchy and Hun slavery at such frightful cost, in life and treasure, cannot now excuse on the ground of kindness to suffering humanity, feeding a menace made in Germany which confronts the whole human family.

The world cannot now safely deal with Bolshevism or with peoples who intentionally or negligently allow Bolshevism to live and thrive within their borders.

Plenty of Laws

A great many unthinking people are contributing to the general confusion and, unconsciously perhaps, aiding those public officials who are seeking to make a big noise, get lots of glory and do nothing really worth while, by advocating the enactment of laws by the federal government and by the state legislature to deal with high prices and other problems which vex us.

We don't need any more law, speaking generally. We have an abundance of law now on the statute books to deal with any one and all of the emergencies which confronts us.

What we do need is more law enforcement, more compelling of law's decrees.

We need now in these times, as we have always needed, more fearless executive officers in state and nation.

Too many of our investigations in the past have come to nothing more substantial than the enactment of more law. Many men have ridden to political glory and financial reward on the crest of a reform wave which broke into tiny and harmless ripples on the shoals of new laws.

Laws don't keep the wrong intentioned walking in the straight and narrow path, laws don't bring the guilty to the bar of justice. Quit the talk for more law and pray for fearless executives.

POETRY FOR TODAY

THERE IS ALWAYS TIME.

There's always time to give a song,
A bright brave note of hope and cheer;

There's always time to give a strong
Hand clasp of fellowship sincere;
No matter what our haste may be
There's time to smile with sympathy.

There's surely always time to love,
Though busy be our eager days,
Small kindnesses, a treasure-trove,
To scatter on our hurried ways;
Yea, there is always time to do
Sweet, tender deeds our life time through.

There's always time for us to see
The beauty of the earth and sky,
The shadows on a clover leaf,
The sunsets fine, empyrion dye;
And time to joy in blossom blow—
Dear God, we thank Thee this is so!
—L. M. Montgomery.

SAYS HE IS 130 CLAIM QUESTIONED

(By Associated Press)
Louisville, July 29.—The National Geographic Society has been asked to investigate the claim of John Shell, a mountaineer of Leslie County, Ky., that he is 130 years old. Shell's neighbors corroborate the statement concerning his age. Shell has nine children. He says the oldest is ninety years old. He is said to have 200 descendants in his home section, several being great-grand children. The mountaineer, who claims excellent eyesight, steady nerve, and general good health, attributes his long life to outdoor living and temperate habits.

STATE OF OHIO TO PUNISH STATE

(By Associated Press)
Delaware, O., July 28.—The state of Ohio has taken steps to punish the state of Ohio for a violation of a law of the state of Ohio. The violation occurred at the Girl's Industrial Home where, contrary to law, the state was employing an unlicensed engineer. In such cases the unlicensed man and his employer both are punished, so the state of Ohio, being the employer, is in for some kind of punishment at the hands of the state of Ohio.

THEFT OF AUTOS ON AN INCREASING SCALE

Twenty-Nine Stolen To Date in July—Many Reports From Other Cities.

Police records here indicate that the number of automobiles stolen throughout the country is increasing.

In Columbus alone last month 56 machines were reported missing; to date this month 29 have been reported to the police.

During the last three months over 1100 reports of stolen cars have been sent in to the police from other cities.

According to one officer, this number will not represent 10 per cent of the total number stolen in the country at large. He says that the daily number of reports received here is on the increase.

The increase is attributed to several factors, among which are the ease with which a machine can be changed to prevent identification; its salability and the light penalty provided by present laws for theft.—Ohio State Journal, July 27, 1919.

Don't allow yourself to feel safe with fire protection only. Theft at the present time seems to be the worst needed. The safe plan is a policy that protects you from FIRE, THEFT, lightning and tornadoes anywhere you may be.

MARGUERITE CLARK STARS IN TWO ROLES

The Wonderland theater offers a unique attraction July 29th, 30th and 31st in a picturization of Mrs. Harriet Beecher Stowe's famous novel, "Uncle Tom's Cabin," the new vehicle starring "Marguerite Clark."

It is a Paramount picture, reviving an immortal story and an excellent cast of players support Miss Clark.

The dainty and fascinating star plays two parts, those of "Little Eva" and "Topsy" and her artistic treatment of each role shows unusual genius. By the aid of multiple exposure photography, Miss Clark is seen simultaneously in the same scene as Eva and Topsy, the one a dainty bit of Dresden China, the other a mischievous pickaninny.

The story that has been played in every town, hamlet and city of America, to millions of people, is being wonderfully visualized on the screen.

STRIKES TWICE

(By Associated Press)

Chillicothe, O., July 23.—The old adage that lightning never strikes twice in the same place has been discredited by L. F. Irwin of this city. A short time ago lightning demolished a chimney on his home. The damage had barely been repaired when lightning again struck the same chimney, the second time badly damaging his home.

What's In Your Bottle of Milk?

YOU are right to rely on milk! It is your best food—it brings health and strength—it is the least expensive nourishment in existence.

But what if you could get a milk just twice as rich, twice as creamy, twice as nourishing as dairy milk?

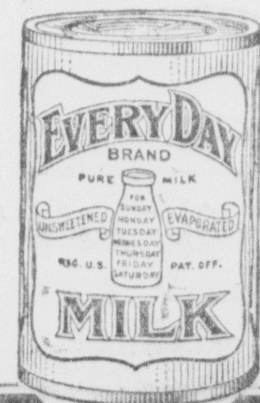

You can. That double richness—that nourishment of twice the quantity of dairy milk—is exactly what you get in a bright tin of Every Day Milk. Nothing is added—nothing but water taken out.

And although you will enjoy its cream-like taste and its richness, you can buy it for much less than the cost of cream!

That is why women like you, who care about housekeeping, use Every Day instead of cream on cereals and in coffee—in cooking—and give it (with water added) to their children to drink.

Be independent of the ice man and the milk man. Every day use Every Day—the safe and pure milk.

BAND CONCERT

Announcement is made that the band concert Tuesday night will be given on the Main and Court street square. The concert will start at the regular hour.

It has been asked that auto owners do not drive around the band stand while the band is playing, and this will be enforced by the police. The noise, it is said, creates confusion and impairs the playing of the band.

VIRGIN ISLANDS ARE INCREASING IN IMPORTANCE

(By Associated Press.)

St. Thomas, Virgin Islands, July 5.—(By Mail)—This American port is beginning to regain some of its former maritime importance. Owing to the war, improvements in this direction have been slow since the Virgin Islands were purchased from Denmark but now, after considerable agitation by business men of St. Thomas, American steamers are beginning to call here. This is the result of representations which have been made to Washington in behalf of the inhabitants of the islands.

The Islanders feel that American steamship owners and especially the Shipping Board at Washington have heretofore overlooked the facilities of the harbor of St. Thomas for providing coal, fuel oil and other stores. While few American steamers have been calling at St. Thomas for supplies, many have called at the neighboring British islands where facilities are not considered as good as here. The price of coal is cheaper at St. Thomas than at the British islands.

To bring this matter before the Shipping Board and to obtain all the help possible from the American people and Congress, a meeting of the inhabitants of the Virgin Islands was held here. Resolutions were adopted calling the attention of the Shipping Board to the facilities of the port, such as a pier 3,000 feet long with 31 feet of water along side and all-up-to-date appliances for the quick dispatch of vessels wanting coal, water, fuel oil and other stores.

The resolution was carried to Washington by Darwin O. Curry, Collector of Customs, who laid it before the Shipping Board. Mr. Curry has since returned and reports that that board, members of Congress, and American business men have promised to do all they can for the island.

Another oil depot is being erected here to meet increased demands. The people of St. Thomas believe it possesses far better facilities than most other W. Indian Island and are determined to make known its availability as a port on call for supplying steamers.

COLOMBIAN TREATY PASSED NO OBJECTIONS

(By Associated Press)

Washington, July 29.—Favorable report on the treaty with Colombia was ordered today by the Foreign Relations committee without a dissenting vote. A motion to reduce from \$25,000,000 to \$15,000,000 the amount payable to Colombia for partition of Panama was defeated.

The treaty will be taken up at once by the Senate which probably will consider it in open session. Its ratification is expected within a few days with a vote today regarded as possible.

NO ICE FAMINE IS ANTICIPATED IN THIS CITY

Recent Increase Not Due To Shortage But to Higher Wages, It Is Explained.

Outside Dealers Offering \$10 Per Ton in Car at This Point.

While a great many communities in Ohio are experiencing the worst ice shortage in years, there is every reason to believe, according to Manager C. N. Baer of the Washington Ice Company, that Washington will not suffer for want of this necessity, although the demand is so great at the present time that some 1500 tons in reserve held in the mammoth storage rooms of the local plant, would last only a short time if all orders from outside were to be filled.

It is explained that it was not due to the general shortage that prompted a recent advance in the local price of ice, but due to increased labor costs which represent a total of several thousand dollars yearly. The average increase was about \$1 per ton, it is stated.

The rates at the present time for ice delivered in the city are given as follows: 100 pounds, taken at once, 50 cents; 75 pounds, at one time, 45c; 50 pounds, 30c; 25 pounds 15c; 12 1/2 pounds, 10c. No piece for less than 10 cents is delivered.

The present great shortage in most of the state is due to the unusually hot weather and the fact that little or no ice was harvested last winter. Toledo is paying 70c per hundred for what ice can be obtained.

The rate in this city is said to be higher than that in Columbus, where it retails at 45 to 50 cents per 100 pounds.

In Port Huron, Mich., ice sells at \$1.25 per hundred; in Detroit 75c per hundred.

Manager Baer announces that he is being offered \$10 per ton, f. o. b. Washington, for all ice he can spare. The factory price means that when shipped to other cities the price will be considerably higher than at this point.

The local plant has a capacity of 30 tons daily and the local consumption at the present time is from 20 to 25 tons.

LENGTHY GAME AT WILMINGTON

One of the longest and most exciting ball games that has been played in semi-pro circles for some time in this part of the state took place at Wilmington Sunday afternoon when the Clintons battled with the Dayton Americans for sixteen innings before reaching a decision. It was almost seven o'clock when the winning run was put across. The score was 5 to 4.

The winning run was scored on a single by White, a High School recruit of the Clintons, batting for Newland.

ENGINE BREAKS PLANT IS CLOSED

As a result of a breakdown in the engine room of the Coffman Manufacturing plant the entire mill has been shut down during the past two days.

It was necessary to send to Cincinnati to supply a new piece for the engine and it is expected that the big concern will not be in operation again before the middle of the week.

Your Car is Only as Good as Its Battery

The battery furnishes power to start the motor, sound the horn, light the lights, and also furnishes the spark for the motor much of the time it is the "nerve center" of the whole car. Without the present-day storage battery the modern automobile would not be possible.

And yet, many car owners entrust the battery from their car to be repaired by inexperienced workmen with inferior materials and methods.

We invite an interview with anyone owning a starting battery, no matter whether you have work for us or not. Come around and talk battery, we may be able to help you as we have dozens of others.

"The longer we make your present battery last the surer we are of eventually selling you a new one."

BOXING CONTEST AND WRESTLING HERE AUGUST 4

With an eight round boxing bout on the program and a finished wrestling match to end up the entertainment Chick Saylor promises to put on the best show of the season, Monday evening, August 4th, at the Sunnyside ball park.

Phil O'Dowd, said to be the best boxer of his weight in Ohio, will tie up with K. O. Marton, of Lima. O'Dowd is a classy handler of the mits and will weigh 116 pounds. On July 2nd, Marton went twelve rounds with Kid Williams, the champion bantamweight of the world.

For the second half of the show Tom Hillery local boy, will go on with John Patake, the Hungarian Champion, in a finished wrestling match. This will be Tom's first crack at an old wrestler and the fans can expect a lively match. Tom is being trained for the match by Matty Matsuda in Columbus.

The Sunnyside ball park will be the scene of the match and the best of accommodations will be afforded. Lights will be strung around the grand stand and a huge 1000 watt light will be over the ring.

It is announced that only a few reserved seats will be sold every precaution will be taken to let the person have the seat purchased.

Women will be admitted free at the gate and it is expected that a large number of the fair sex will attend.

GROGER UP AGAINST IT

"I have been up against it for past 3 years suffering from pain in my stomach and side until I was considering giving up my grocery business. Doctors and medicine did not help me. I heard of Mayr's Wonderful Remedy through a friend in Buffalo. The first dose gave me more benefit than all the medicine I had taken before and am now feeling as well as ever in my life." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.

Hot Weather Tortured Feet

Long, hot days in shop or store, trips "down town," hours of standing or walking on hard floors and hot pavements—bring distress to feet.

Give your poor, tired, swollen feet a treat. A gentle massage with soothing, healing, House-tone-e-ah will do it. My! What relief!

A light application once or twice a day, and you soon forget you have feet. New, tight shoes feel like old, easy ones. It relieves all pain immediately, takes away the inflammation, reduces the swelling, removes all soreness from corns, softens callouses and keeps the feet in excellent condition.

A 25c bottle, from your druggist, lasts for months. Ask for and get House-tone-e-ah (The Original Jones Lintment). The Dr. J. C. Jones Co., S. Charleston, Ohio. "The kind your daddy used, with my dad's picture on the yellow wrapper."

The Master Singers of Chautauqua

Orpheus Four of Los Angeles to Give Concerts at Chautauqua This Summer

What is said to be the finest singing male quartet in America is scheduled for two concerts at Chautauqua this summer. The Orpheus Four, as the quartet is called, is from Los Angeles and is the official quartet of the Orpheus Club of that city, the organization that won the International Grand Prize of \$5,000.00 for the best male chorus at the Panama-Pacific Exposition. The quartet has been giving concerts as a quartet for several seasons, having spent most of last season and the season before entertaining the soldiers in the cantonments, giving as many as six concerts in a day, winning for themselves the nickname, "the champion long-distance singers of the world"—the nickname the doughboys gave them. Their repertoire is almost inexhaustible. They have made many records for leading talking machine companies and these records are in thousands of homes.

Known Throughout The World

Is Juvenile Court Judge Who Is to Lecture at Chautauqua

The fame of Judge Ben B. Lindsey, who will lecture at Chautauqua this summer, is world-wide and is the sort of fame that travels so quietly it seems to go by underground and reaches millions of people as if in silence. He is known throughout the whole modern world for his work in the Juvenile Court of Denver. His laws and his court-procedure have been the model for acts of Parliament in Great Britain. He is as much an authority in France and Germany and Austria and Italy. When the envoys of the Kerenky Government came to America, they brought a message of fraternal thanks to him from the new Russian republic.

Those who have heard Judge Lindsey since his return from France, where he went under the auspices of the American government and the Allies to study social conditions and rehabilitation plans among the women, children, and girls of the war zone, say that never before has he delivered such powerful lectures—lectures which completely grip the immense audiences that everywhere gather to hear the famous speaker.

Judge Lindsey always deals with vital topics, but his lectures are always entertaining and brimful of fun and humor. He is a capital story-teller and he uses the story as Lincoln did to illuminate a great truth. The subject he has announced for his Chautauqua tour this summer is "Why Kids Lie."

DR. CECILE GRIEL

Heroine at the Italian Front—Only American Survivor of the "Ancona."

One of the most interesting speakers of the entire program is Dr. Cecile Griel who was educated in the United States, France, Germany, and Italy, receiving her M. D. Degree at the Polytechnic in Rome. For a number of years she remained in Italy practicing medicine and doing social work, until, when war broke out, she was commandeered by the Italian government for service in the Italian hospitals, being put in charge of one of the hospitals near the Italian front. In this work she was engaged for two years. Wishing to return to America, as she is American-born, she took passage on the ill-fated "Ancona," which was torpedoed the second day out. After seven hours in an open boat, where she saw 250 persons perish by drowning, mostly women and children, she was rescued, the only American survivor.

At present she is in charge of the Americanization movement among the Italians in America that is being organized by the National Y. W. C. A.

She is a woman of great force, experienced as a speaker, lecturing with equal facility in English, Italian, or

French. When she appears here, she will speak in English on "A Woman on the Italian Front."

THE GREEN & GREEN CO

MEMBERS OF AUTO CLUB ENTHUSED BY CLUB WORKER

Monday evening at the court house a large number of the members and officers of the Fayette County Automobile Club gathered to hear a most interesting and entertaining talk by Arch Deacon J. E. Dodshon, of Zanesville, president of the Muskingum County Automobile Club and a director of the Ohio State Automobile Association. As a result

of the meeting, action was taken by the Fayette club to put on a membership drive during the week of the county fair.

Rev. Dodshon spoke of the best manner of conducting a club and also spoke of the benefits derived from an organization of this kind.

Influence for better highways was only one of the strong points of a club, he stated. The speaker declared that it had not been for auto clubs in the state there would at present be an enormous tax on autos ranging from twenty dollars to over one hundred dollars on the car.

It was asserted by Rev. Dodshon that the speed laws recently enacted by the state was the work of the auto clubs.

The Club will have a booth at the fair grounds and it is expected that the club membership will be doubled. A paid up membership of nearly three hundred is announced by the club.

Definite announcement concerning the membership drive has not been fully completed.

TREASURER HAS GREATEST DAY

The greatest single day's tax collection in the history of the Fayette County Treasurer's office was that of Monday, when the funds went up more than \$10,000 over any previous high mark and reached \$34,439.65, bringing the total up to \$209,458.95.

The rush to pay taxes was great from the moment the office was open.

What some people can't understand is why President Wilson wants to save daylight when the saloons are all closed.

A New Corn Borer From Europe

The European corn borer has become established in the territory adjacent to Boston, Mass., and about Schenectady, N. Y. Near Boston this insect has, during the past two years, made impossible the profitable growing of corn. The borer is a yellowish gray caterpillar, covered with very small brown spots, and is about three-fourths of an inch long when full grown. The first evidence of the borer's presence is the breaking of the stalk just beneath the tassel. The larvae later burrow throughout the entire stalk, damaging it so badly that it breaks over before the corn is mature. Photographs from Massachusetts show a field of corn invaded by the borers, which have left the field a tangled mass of broken corn stalks. Over 500 of the borers were taken from one hill of corn.

This insect is probably the greatest menace of any that have ever come to America. It may be present unobserved on some farm or farms in Ohio. To prevent its becoming established in our own state the cooperation is asked of every one who knows the value of our greatest of all cereals.

Broken tassels and borings, an easily recognized sign of corn borer work. (After U. S. Dept. Agr.)

BALL PLAYERS STILL IN THE SERVICE

Few of the fans know that a soldier who is in active service plays for the Athletics every Sunday. Harley Adams, the crack right fielder of the local team and the hitter who secured three hits out of five trips to the plate in Sunday's game, bears that distinction.

At Camp Sherman, Harley is known as Sergeant Adams, and those who know say he is an even better soldier than ball player.

Sergeant Adams gets a pass each Sunday and comes to this city where he romps in the right garden.

He expects to receive his discharge from the service some time during the fall.

UNUSUAL STORE WILL BE OPENED HERE WEDNESDAY

"All Things Common Store" Is Name of New Institution Here.

Will be Operated by "House of Prayer" Trustees, it is Announced.

Under a co-operative plan the congregation of the "House of Prayer" located on North street, is establishing a grocery in the Logan property which will be known as the "All Things Common Store."

It is understood that the profits of the grocery are to be used for the betterment and for the advancement of the church.

The store is to be run on a purely co-operative basis, it is announced, and will be under a general manager, George Davidson, and thirty-five trustees.

In accordance with the plan of conducting the store it will be known as the "All Things Common Store." Announcement is made that the grocery will be opened Wednesday, the room having been converted into a suitable location for the store by the workmen of the congregation.

While the store is being opened primarily for the congregation, it is announced that goods will be sold to anyone.

The institution is the first of its kind to be opened in this city, and is in the same building as the church proper.

MEAT VERY SCARCE CATTLE STARVE

(By Associated Press.)
 Berlin, July 1.—(By Mail)—The government troops guarding the Lichtenberg station in the east end of Berlin, have discovered carloads of live stock which were sidetracked to the freight yards and apparently forgotten. Most of the animals were dead from starvation.

Meanwhile the shortage of meat in Berlin is one of the most difficult problems facing the food authorities.
